CALL FOR THE JUNE SCORING CONTEST.

Within twenty-four hours after the receipt of this letter, you will please ship a tub of butter for the June Scoring Contest to the Central Michigan Produce Company, Alma, Michigan. Please find shipping tag enclosed. In order that we may know that you are complying with this request, you will please send to the Dairy and Food Department, care Central Michigan Produce Co., Alma, Michigan, the envelope containing this call showing receipting stamp of your postmaster, and also express receipt showing date of the shipment of the butter. The object in holding this scoring test at Alma is to give the buttermakers and cheesemakers in that vicinity an opportunity of attending the scoring.

This surprise call, of course, does not apply to cheese. The cheesemaker is at liberty to use his judgment and select any cheese that he may have in stock.

I again wish to call your attention to the advisability of every buttermaker in the state participating in this scoring contest. Whether you believe it or not, it will be of great benefit to you personally and to your creamery and, consequently, to the dairy industry. While the immediate benefits may not be apparent to you now, the work will without a question make you a better buttermaker or cheesemaker. We intend to make a diploma from this department, whether for making butter or cheese, a passport that will be of great value to you in the future.

Yours very truly,

COLON C. LILLIE,
Deputy Dairy and Food Commissioner.

Eminent Doctors Praise Its Ingredients.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Pye one of the Editorial Staff of THE ELECTRIC MEDICAL REVIEW says of Unicorn root (Helonia Dioica) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator * * * makes for normal activity of the entire reproductive system." He continues "In Holonis we have a medicine which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Pye further says: "The following are among the leading indications for Helonia (Unicorn root). Pain or aching in the back, with leucorrhea; acute or chronic conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women, constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weak condition of the reproductive system; amenorrhoea (suppressed or absent monthly periods), arising from or accompanying an abnormal condition of the digestive tract; and anæmia (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading agents of which is Unicorn root, or Helonia, and the medical properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions * * * and general enfeeblement, it is used with great success." Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion as is Unicorn root, or Helonia, which is universally regarded as the tonic useful in all debilitated states."

Prof. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in atonic hemorrhage, menorrhagia (flooding) and congestive dysmenorrhoea (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

D. 1903, by John Sanders and Frances Sanders, his wife, to the FIRST STATE BANK OF ALMA, MICHIGAN, which said mortgage was duly recorded in the office of the Register of Deeds for Gratiot County, Michigan, in Liber 100 of Mortgages on page 229, upon which mortgage there is now due at the date of this notice for principal and interest the sum of two hundred eighty-five and 75-100 dollars (\$285.75); and also the further sum of ninety and 34-100 dollars (\$90.34) for taxes paid by the mortgagee, as in said mortgage provided, and an attorney fee of fifteen dollars (\$15.) together with other legal and taxable costs of this foreclosure.

NOTICE TO THE PUBLIC.

It is not my desire to publish anything relative to my domestic troubles, but in justice to myself after the notice published last week by my husband, must state that that notice is a base slander. My husband, Lorin Kashnider, has never been obliged to pay any of my bills. I have earned money by teaching after our marriage, which I used for all my expenses and willingly invested money in furnishing a home. As to the statement that I left without just cause or provocation, it is false, and I am ready to prove it to anyone who may be interested.

Dated, June 22, 1906.

Don't Delay Your Purchase

OF A

CREAM SEPARATOR

Don't make the mistake of putting off your purchase of a Cream Separator until fall or another spring season. There was never a better time to make so good an investment than right now. There are half a dozen very strong reasons for it. The use of the Cream Separator is doubly profitable during the hot months. The bulk of milk is greatest. The drudgery of the dairy work is greatest. The need of ice and cold water is greatest. The value of the sweet skim milk is greatest. The waste of butter-fat by any setting system is greatest. Every other system than the separator is at its worst. Hence again we say that there never was a better time to make the purchase of a separator than right now. Butter prices are extremely good and a machine will half pay for itself by autumn. As between separators—the D. E. LAVAL is as much superior to other machines as they are to setting systems. As to terms—you may either pay cash or so easily that the machine will actually pay for itself. A new catalogue is to be had for the asking—send for it today.
